

# Vascular Screening

## Vascular Screenings Help Identify Risks That Could Lead to a Stroke or Heart Attack

**\$25**

**Special Pricing**

### Wayne HealthCare Vascular Screening

Screen Includes:

- Carotid Vascular Ultrasound
- Abdominal Aorta Vascular Ultrasound
- Peripheral Arterial Disease Screening

All screenings are self-directed and do not require an order from your physician. For more information or to schedule an appointment call (937) 547-5715.

#### **Carotid Vascular Ultrasound**

This screening helps identify the risk of a stroke by testing for plaque buildup in the carotid arteries.

#### **Abdominal Aorta Vascular Ultrasound**

The Abdominal Aorta Vascular Ultrasound checks for the presence of an aneurysm that could lead to a ruptured aorta.

#### **Peripheral Arterial Disease Screening**

Screening for Peripheral Arterial Disease measures the circulation in your legs to identify risk for a heart attack or stroke.

#### **Risk Factors**

- Over the age of 50
- Family history of heart disease or stroke
- Over the age of 40 and overweight
- High cholesterol
- Do not exercise regularly
