Are you suffering from pain that keeps you from doing everyday activities? Pain management is an aspect of healthcare involving pain relief in various dimensions, from acute and simple to chronic and challenging. At the Wayne HealthCare Pain Management Center, we understand that no one pain treatment is right for every patient. Our goal is to create treatment plans and incorporate multiple treatment modalities, so that each patient receives maximum benefit. Your personalized treatment plan will be as individual as you are.

At the Pain Management Center, we are dedicated to helping improve your quality of life.
